

Lotus

Design by Martin Ballendat

The Lotus chair, designed by Martin Ballendat, is defined by clean lines and a sculpted form inspired by the elegance of the lotus flower. New models include a 4-star aluminium base with or without castors and a four-legged steel base offering a lighter, more refined look. Choose from four powder-coated colours and a fully wooden or upholstered seat for added comfort.

Its affordability makes it a perfect choice for cafés, dining rooms, bistros and restaurants.
